Unaudited pro forma consolidated financial information as of and for the year ended December 31, 2012 .....	PF-2
Notes to the unaudited pro forma financial information .....	PF-9

## **Unaudited pro forma consolidated financial information as of and for the year ended 31 December 2012**

The following unaudited pro forma consolidated financial information of EP Energy, a.s. ("the Company" or "EPE") as of and for the year ended 31 December 2012 has been derived from the historical IFRS consolidated financial statements of EP Energy, a.s. and its subsidiaries ("EPE Group") as of and for the year ended 31 December 2012. Certain pro forma related adjustments, as described further in the text, have been added to the data derived from the historical IFRS consolidated financial statements to compile this unaudited pro forma consolidated financial information.

The unaudited pro forma consolidated financial information of EP Energy, a.s. as of and for the year ended 31 December 2012, pro forma adjustments and related assumptions were prepared as described in the accompanying notes to this unaudited pro forma consolidated financial information on pages PF 9 – 18. The unaudited pro forma adjustments are based on currently available information and assumptions that we believe to be reasonable.

The unaudited pro forma consolidated financial information is for informational purposes only and is not intended to represent or to be indicative of the consolidated results of operations or financial position of EPE Group and should not be taken as indicative of EPE Group's future consolidated results of operations.

The actual results may differ significantly from those reflected in the unaudited pro forma consolidated financial information for a number of reasons, including, but not limited to, differences between the assumptions used to prepare this unaudited pro forma consolidated financial information and actual results.

The unaudited pro forma consolidated financial information have not been prepared in accordance with the rules or regulations of the United States Securities and Exchange Commission, and is not compliant therewith or any other comprehensive basis of preparation. Any reliance you place on this information should take this fully into consideration.

**Notes:**

(1) *Historical IFRS consolidated income statement of EP Energy, a.s. for the year ended 31 December 2012*

(2) *EBITDA represents profit from operations plus depreciation of property, plant and equipment and amortisation of intangible assets (negative goodwill not included, if applicable). Although EBITDA should not be considered a substitute measure for profit and net cash flow from operating activities, we believe that it provides useful information regarding our ability to meet future debt service requirements. EBITDA may not be comparable to similarly titled measures used by other companies.*

- (3) *Adjusted EBITDA represents EBITDA as calculated in Note (2) further adjusted to exclude (a) the following non-recurring, non-cash effects related to reclamation provisions: (i) a change in the discount rate (which lead to an CZK 2,718 million increase to EBITDA) and (ii) an increase in the assumed inflation rate (which lead to an CZK 582 million decrease to EBITDA) and (b) the items related to Saale Energie (which lead to a CZK 355 million decrease to EBITDA on a 2012 annual basis, of which CZK 175 million relates to the period from January 1, 2012 to July 31, 2012 and CZK 180 million relates to the period from August 1, 2012 to December 30, 2012), which, due to the accounting treatment of the specific contractual arrangement with Schkopau, are charged to operating costs of Saale Energie but relate to entries that would otherwise not be included in EBITDA.*
- (4) *CAPEX represents acquisitions of property, plant and equipment and intangible assets excluding emission rights (disregarding the actual cash flows).*

## Notes to the unaudited pro forma consolidated financial information

### 1. Description of the entity

EP Energy, a.s. was founded by Energetický a průmyslový holding, a.s. ("EPH") on 16 December 2010 as a subsidiary to consolidate entities belonging to the energy segment of the EPH Group.

Registered office of the Company:

EP Energy, a.s.  
Příkop 843/4  
602 00 Brno  
Czech Republic

Members of Board of Directors as of 31 December 2012:

Chairman:	JUDr. Daniel Křetínský, Czech Republic
Vice-chairman:	Mgr. Marek Spurný, Czech Republic
Member:	Ing. Jan Špringl, Czech Republic
Member:	Pavel Horský, Czech Republic

Members of Supervisory Board as of 31 December 2012:

Chairman:	Martin Štefunko, Slovak Republic
Member:	Robert Ševela, Czech Republic
Member:	Mel Gerard Carvill, United Kingdom
Member:	Ivan Jakabovič, Slovak Republic
Member:	Martin Fedor, Slovak Republic
Member:	Miloš Badida, Czech Republic

### 2. Background information and scope of the unaudited pro forma consolidated financial information

The unaudited pro forma consolidated financial information (further also "pro forma financial information") are derived from the historical IFRS consolidated financial statements of the EPE Group as of and for the year ended 31 December 2012.

The historical IFRS consolidated statement of financial position and historical IFRS consolidated income statement information of the EPE Group as of and for the year ended 31 December 2012 is included in the column "Consolidated figures" in the pro forma financial information as of and for the year ended 31 December 2012.

The historical IFRS consolidated financial statements of the EPE Group as of and for the year ended 31 December 2012 are used as the main building blocks in the compilation of the pro forma financial information. Pro forma adjustments, as included in column "Pro forma adjustments", were applied to the historical IFRS consolidated financial information to derive the pro forma financial information (column "EP Energy, a.s. pro forma").

The pro forma adjustments were based on assumptions from the individual financial information of the sub-group's entities for the period from 1 January 2012 to 31 December 2012. This individual financial information was prepared following the EPE Group's accounting instructions, which are based on IFRS.

## Notes to the unaudited pro forma consolidated financial information (continued)

### 2. Background information and scope of the unaudited pro forma consolidated financial information (continued)

Abbreviations used:

AA Acquisition accounting incl. purchase price allocation

AA\* Pražská teplárenská a.s. was acquired in two steps:

1. The first part was acquired by PT Holding Investment B.V. in September 2010. The acquisition was recorded in the IFRS consolidated financial statements using acquisition accounting techniques incl. purchase price allocation.
2. The second part was acquired by HC Fin 3 N.V. in December 2010. The acquisition was recorded using acquisition accounting techniques incl. purchase price allocation.

Furthermore, in June 2012, the EPE Group gained control over Pražská teplárenská a.s. (with no change in shareholding structure) and has fully consolidated Pražská teplárenská a.s. from June 2012 onwards (with the respective portion of non-controlling interests). In this pro forma financial information, Pražská teplárenská a.s. is reported as if already controlled by the EPE Group effectively from 1 January 2012. For this reason, the pro forma financial information contains specific pro forma adjustments as described in Note 3.2.1.

AA+ JTSD Braunkohlebergbau GmbH Group was acquired in two steps:

1. The first 50% share was acquired by the EPE Group in June 2011.
2. The remaining 50% share was acquired by the EPE Group in June 2012.

Both acquisitions were included in this pro forma financial information using acquisition accounting techniques including the purchase price allocation which was based on the valuation report prepared for the purposes of the acquisition of the other 50% share. In addition, in this pro forma financial information, the acquisition of a 100% share in JTSD Braunkohlebergbau GmbH Group is reported as if acquired on 1 January 2012. For this reason, the pro forma financial information contains specific pro forma adjustments as described in Note 3.2.4.

AA- Saale Energie GmbH Group:

1. 100% share in Saale Energie GmbH was acquired in July 2012.

The acquisition of Saale Energie GmbH included in this pro forma financial information uses acquisition accounting techniques including the purchase price allocation adjustments and related tax effects based on the valuation report prepared by external valuers. In this pro forma financial information, Saale Energie GmbH is reported as if already controlled by the EPE Group effectively from 1 January 2012. For this reason, the pro forma financial information contains specific pro forma adjustments as described in Note 3.2.5.

CC Common control acquisition—no new goodwill or negative goodwill recognised in the IFRS consolidated financial statements. The difference between the Net assets acquired (at Net Book Value) and the Purchase price was recorded against equity in the IFRS consolidated financial statements.

CO Entity included at cost (due to immateriality).

EST Entity established by the parent company.

# EP Energy, a.s.

## Notes to the unaudited pro forma consolidated financial information (continued)

### 3. Assumptions used for the compilation of the pro forma consolidated financial information

#### 3.1. General pro forma financial information assumptions

The historical IFRS consolidated financial information as of and for the year ended 31 December 2012 has been adjusted to reflect:

1. Consolidation of Pražská teplárenská a.s. using the full method of consolidation effective from 1 January 2012, including presentation of Pražská teplárenská a.s.'s subsidiary Areál Třeboradice, a.s. as held for sale (adjustment column "Pražská teplárenská a.s. related adjustments");
2. Consolidation of Energotrans SERVIS, a.s., an entity established by Energotrans, a.s. in April 2012, effectively from 1 January 2012 (adjustment column "Pražská teplárenská a.s. related adjustments");
3. Disposal of Energotrans, a.s. (former subsidiary of Pražská teplárenská a.s.) effective on 1 January 2012 including associated changes in financing (adjustment columns "Energotrans a.s. related adjustments" and "EAST BOHEMIA ENERGY HOLDING LIMITED related adjustments");
4. Consolidation of a 100% share in JTSD Braunkohlebergbau GmbH and its subsidiaries including associated changes in financing effective from 1 January 2012 (adjustment column "JTSD Braunkohlebergbau GmbH and its subsidiaries related adjustments"); and
5. Consolidation of a 100% share in Saale Energie GmbH and its associates including related changes in financing effective from 1 January 2012 (adjustment column "Saale Energie GmbH and its associates related adjustments").

#### 3.2. Description of adjustments recorded in the pro forma financial information of EP Energy, a.s. as of and for the year ended 31 December 2012

##### 3.2.1. Pražská teplárenská a.s. related adjustments

The EPE Group gained control of Pražská teplárenská a.s. based on the shareholders' agreement signed on 29 June 2012. The total share of the EPE Group in Pražská teplárenská a.s. remained unchanged, i.e. 73.26%. As a result of the new shareholders' agreement, Pražská teplárenská a.s. is, since 1 July 2012, included in the EPE historical IFRS consolidated income statement for the year ended 31 December 2012 using the full method of consolidation reflecting the relevant non-controlling interest of 26.74%. In the pro forma financial information, Pražská teplárenská a.s. is consolidated using the full method of consolidation effective from 1 January 2012.

As such, the profit and loss accounts of Pražská teplárenská a.s. for the period from 1 January 2012 to 30 June 2012 (sub-consolidated accounts, i.e. also including Energotrans, a.s.; Energotrans, a.s. operations were then eliminated as described in Note 3.2.2) were recalculated to include the remaining 26.74% of operations in the individual pro forma income statement line items (i.e. to reflect the full consolidation method) with a reported 26.74% related to non-controlling interest. Also, appropriate changes to intercompany eliminations were carried out in the pro forma financial information to reflect the different method of consolidation.

The purchase price allocation prepared in accordance with IFRS 3 was performed for the purposes of reflecting the gain of control in Pražská teplárenská a.s. on 29 June 2012. The pro forma financial information includes the effects of these purchase price allocation adjustments as if the EPE Group had gained control over Pražská teplárenská a.s. on 1 January 2012. These effects are primarily represented by simulated depreciation and amortisation charges related to the tangible and intangible assets revalued during the purchase price allocation process. These pro forma depreciation and amortisation adjustments were based on a simple linear approximation of amortisation and depreciation charges of related assets and may not, therefore, be accurate in terms of following the actual amortisation and depreciation patterns.

In the historical IFRS consolidated financial statements, as a result of accounting for the gain of control in Pražská teplárenská a.s., the EPE Group recognised a gain on disposal of the previously held joint venture

# EP Energy, a.s.

## Notes to the unaudited pro forma consolidated financial information (continued)

### 3. Assumptions used for the compilation of the pro forma consolidated financial information (continued)

#### 3.2. Description of adjustments recorded in the pro forma financial information of EP Energy, a.s. as of and for the year ended 31 December 2012 (continued)

share totalling CZK 866 million. This gain was reversed in the pro forma consolidated financial information.

On 17 April 2012, Energotrans, a.s. established the subsidiary Energotrans SERVIS, a.s. by a contribution of specific assets. Pražská teplárenská a.s. subsequently acquired an 85% share in Energotrans SERVIS, a.s. in June 2012. For the purposes of the pro forma financial information, Energotrans SERVIS, a.s. was, therefore, fully consolidated effective from 1 January 2012. In the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012, the contributed assets were not depreciated before the inception of Energotrans SERVIS, a.s. (i.e. from 1 January to 17 April 2012) as they were reported as held for sale under IFRS 5 due to the fact that it was expected that these assets would be disposed together with Energotrans, a.s. In the pro forma financial information, the EPE Group decided not to capture the missing depreciation as the remaining useful life of these assets is considered long and the potential depreciation charge for the pro forma period is not deemed significant by the EPE Group.

On 23 November 2012, Pražská teplárenská a.s. established a subsidiary Areál Třeboradice, a.s. by a contribution of a defined group of assets. Due to the subsequent planned disposal of this special purpose entity outside of the EPE Group in 2013, Pražská teplárenská a.s. reclassified these assets from property, plant and equipment to assets held for sale on 1 January 2012 and stopped depreciating them in the pro forma financial information from that date.

#### 3.2.2. Energotrans, a.s. related adjustments

In June 2012, Energotrans, a.s., a former subsidiary of Pražská teplárenská a.s. was sold. As a result, Energotrans, a.s. was excluded from the pro forma financial information effective from 1 January 2012. The associated pro forma financial information adjustment excluded Energotrans, a.s.'s related operations from the sub-consolidated financial information of Pražská teplárenská a.s. Also, relevant adjustments to intercompany transactions between Energotrans, a.s. and the EPE Group were reflected in the pro forma financial information. The gain on disposal of Energotrans, a.s. (CZK 2,590 million) reported in the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012 was reversed in the pro forma financial information.

#### 3.2.3. EAST BOHEMIA ENERGY HOLDING LIMITED related adjustments

As Energotrans, a.s. was excluded from the pro forma financial information on 1 January 2012, the pro forma financial information also does not include an advance received from the acquirer of Energotrans, a.s. This advance was historically reported in the general ledger of EAST BOHEMIA ENERGY HOLDING LIMITED until it was settled shortly after the sale of Energotrans, a.s. in June 2012.

As a result of the exclusion of the advance from the pro forma financial information, an interest expense for the six-month period ended 30 June 2012 due from the received advance payment and recorded in the standalone general ledger of EAST BOHEMIA ENERGY HOLDING LIMITED was reversed.

As an additional pro forma adjustment, a statutory profit on the sale of Energotrans, a.s. belonging to the EPE Group (i.e. 73.26% of the total profit from the sale) which in 2013 is to be distributed as a dividend to EPE was offset with the received advance payment treated as made on 1 January 2012 for purposes of the pro forma financial information, and the resulting difference (i.e., the excess advance payment) was assumed as an interest-bearing loan. The related interest expense for the six-month period ended 30 June 2012 was calculated and was reflected in the pro forma financial information.

# EP Energy, a.s.

## Notes to the unaudited pro forma consolidated financial information (continued)

### 3. Assumptions used for the compilation of the pro forma consolidated financial information (continued)

#### 3.2. Description of adjustments recorded in the pro forma financial information of EP Energy, a.s. as of and for the year ended 31 December 2012 (continued)

##### 3.2.4. JTSD Braunkohlebergbau GmbH and its subsidiaries related adjustments

The EPE Group acquired a 50% share in JTSD Braunkohlebergbau GmbH on 28 June 2011, and on that date agreed on a legally binding acquisition of the remaining 50% share in JTSD Braunkohlebergbau GmbH; the acquisition process for the remaining 50% was then completed at the end of June 2012.

As a result, the acquisition of a 100% share in JTSD Braunkohlebergbau GmbH was reflected in the pro forma financial information as if the acquisition date was 1 January 2012.

Financial information of JTSD Braunkohlebergbau GmbH used for the compilation of the historical IFRS consolidated financial statements of EPE Group for the year ended 31 December 2012 has been recalculated to include the remaining 50% of operations for the first half of 2012 in the individual pro forma income statement line items. Also, appropriate changes to intercompany eliminations were carried out to reflect a full consolidation of JTSD Braunkohlebergbau GmbH in the pro forma financial information for the year ended 31 December 2012. For simplification purposes, the EPE Group used for a recalculation of EUR denominated income statement line items an average EUR/CZK foreign exchange rate for 2012, i.e. 25.14 CZK/EUR.

As a result of these pro forma adjustments, 100% of JTSD Braunkohlebergbau GmbH's operations for the year ended 31 December 2012 is included in the pro forma financial information.

For the purposes of accounting for the acquisition of the remaining 50% of JTSD Braunkohlebergbau GmbH in June 2012, a purchase price allocation was prepared by external valuation specialists and included in the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012. For the purposes of the pro forma financial information, these purchase price valuation adjustments were reflected in the pro forma financial information as if the whole purchase price allocation process was performed on 1 January 2012. Similarly to the Pražská teplárenská a.s. related pro forma adjustments described in Note 3.2.1, the pro forma financial information includes adjustments simulating the impact of depreciation and amortisation from the tangible and intangible assets revalued during the purchase price allocation process. These pro forma depreciation and amortisation adjustments were based on a simple linear approximation of amortisation and depreciation charges of related assets and may not, therefore, be accurate in terms of following the real amortisation and depreciation patterns. Specifically for JTSD Braunkohlebergbau GmbH, the business plan, based on which the overall fair valuation was performed, is more optimistic, due to recent developments, as compared to the one prepared for the 30 June 2011 valuation, which resulted in a significant uplift on selected tangible assets. As compared to a simple linear approximation of amortisation and depreciation charges, actual amortisation and depreciation patterns would result in less amortisation and depreciation charges in the beginning followed by increased charges in the future (corresponding to the progressive increase in planned coal extraction). Also, the pro forma adjustments relating to simulation of effects from revalued provisions (primarily provisions relating to mine reclamation and provisions for mining damage) were calculated and included.

The purchase price for acquisition of the remaining 50% share in JTSD Braunkohlebergbau GmbH was financed by interest-bearing debt in the historical IFRS consolidated financial statements as of 31 December 2012. The related interest expense was calculated for the period from 1 January 2012 to 30 June 2012 (i.e. until the date of acquisition of the remaining 50% share) and the relevant part was captured in the pro forma financial information. The interest rate used for the calculation of interest expense was based on the existing contract for the acquisition of JTSD Braunkohlebergbau GmbH, which specifies the effective interest rate for acquisition debts.

# EP Energy, a.s.

## Notes to the unaudited pro forma consolidated financial information (continued)

### 3. Assumptions used for the compilation of the pro forma consolidated financial information (continued)

#### 3.2. Description of adjustments recorded in the pro forma financial information of EP Energy, a.s. as of and for the year ended 31 December 2012 (continued)

Negative goodwill resulting from the acquisition of JTSD Braunkohlebergbau GmbH was retained in equity, i.e. the pro forma financial information does not include any negative goodwill effects (i.e. it also includes the reversal of negative goodwill recognised in the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012).

In the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012, as a result of accounting for the step-acquisition of JTSD Braunkohlebergbau GmbH, the EPE Group recognised a gain on disposal totalling CZK 1,028 million. This gain was reversed in the pro forma consolidated financial information.

##### 3.2.5. Saale Energie GmbH and its associates related adjustments

EP Germany GmbH acquired a 100% share in Saale Energie GmbH and its associates in July 2012. The sub-group was consolidated into the EPE Group using a full method of consolidation.

As a result, the acquisition of a 100% share in Saale Energie GmbH and its associates was reflected in the pro forma financial information as if the acquisition date was 1 January 2012.

Purchase price allocation in connection with the above acquisition was prepared by external valuation specialists and was included in the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012. The pro forma financial information includes the effects of certain purchase price allocation adjustments and related tax effect as if the EPE Group had gained control over Saale Energie GmbH and its associates on 1 January 2012.

In connection with the purchase price allocation the acquirer identified new intangible assets (Electricity Sale Agreement and Use & Benefit Agreement) and increased value of equity-accounted investees resulting from the revaluation of their property, plant and equipment. The respective assets have been depreciated and amortized since 1 August 2012 in the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012. The purchase price allocation adjustments were reflected in the pro forma financial information as if the whole purchase price allocation process was performed on 1 January 2012, however, the related simulated amortisation charges related to the intangible assets revalued during the purchase price allocation process were reflected from 1 August 2012 only, as amortization charges relating to these intangible assets are not linear over the useful life of the contracts and approximation of any impact on pro forma financial information is, therefore, impracticable and not reliable.

The purchase price for the acquisition of the 100% share in Saale Energie GmbH and its associates was financed by interest-bearing debt. For pro forma financial information purposes, the related interest expense was calculated and recorded for the whole year ended 31 December 2012. The interest rate used for the calculation of interest expense was based on the effective interest rate used for interest-bearing loan received in July 2012 from the owner of the EPE Group (Energetický a průmyslový holding, a.s.) to finance the acquisition of Saale Energie GmbH.

Negative goodwill resulting from the acquisition of Saale Energie GmbH was retained in equity, i.e. the pro forma financial information does not include any negative goodwill effects (as such, it also includes a reversal of negative goodwill of CZK 472 million recognised in the historical IFRS consolidated financial statements as of and for the year ended 31 December 2012).

financial information (continued)**

**Other financial information:**

<i>In millions of CZK</i>	Mining	Heat and Power	Trading and Supply	Renewables	Other	Total segments	Inter-segment eliminations	Consolidated Financial Information
EBITDA <sup>(1)</sup> .....	5,526	5,372	377	117	(129)	11,263	2	11,265
Adjusted EBITDA <sup>(2)</sup> .....	3,390	5,727	377	117	(129)	9,482	2	9,484

**Notes:**

- (1) EBITDA represents profit from operations plus depreciation of property, plant and equipment and amortisation of intangible assets (negative goodwill not included, if applicable). Although EBITDA should not be considered a substitute measure for profit and net cash flow from operating activities, we believe that it provides useful information regarding our ability to meet future debt service requirements. EBITDA may not be comparable to the similarly titled measure used by other companies.
- (2) Adjusted EBITDA represents EBITDA as calculated in Note (1) further adjusted to exclude (a) the following non-recurring, non-cash effects related to reclamation provisions: (i) change in the discount rate (which lead to an CZK 2,718 million increase to EBITDA) and (ii) an increase in the assumed inflation rate (which lead to an CZK 582 million decrease to EBITDA), each of which relates to the Mining segment and (b) the items related to Saale Energie in the Heat and Power segment (which lead to a CZK 355 million decrease to EBITDA on a 2012 annual basis, of which CZK 175 million relates to the period from January 1, 2012 to July 31, 2012 and CZK 180 million relates to the period from August 1, 2012 to December 31, 2012), which, due to the accounting treatment of the specific contractual arrangement with Schkopau, are charged to operating costs of Saale Energie but relate to entries that would otherwise not be included in EBITDA.

**Non-current pro forma assets and liabilities**

For the year ended 31 December 2012

<i>In millions of CZK</i>	Mining	Heat and Power	Trading and Supply	Renewables	Other	Total segments	Inter-segment eliminations	Proforma consolidated financial information
Reportable segment assets .....	23,112	45,071	4,284	2,208	36,878	111,553	(29,104)	82,449
Reportable segment liabilities .....	16,717	26,441	3,488	2,223	26,430	75,299	(29,103)	46,196
CAPEX for tangible and intangible assets excluding emission allowances <sup>(1)</sup> .....	1,145	822	14	61	2	2,044	–	2,044
Equity accounted investees .....	768	3,275	–	–	–	4,043	–	4,043

**Notes:**

- (1) CAPEX represents acquisitions of property, plant and equipment and intangible assets excluding emission rights (disregarding the actual cash flows).
